

NWTD News - July 2024

The North West Transmission Developments (NWTD), being progressed by TasNetworks, include 240 km of new and upgraded transmission lines and other energy infrastructure that will increase the capacity of Tasmania's electricity network.

The developments will support our renewable energy future. [Watch explainer video](#)

Investing in our North West community

TasNetworks is committed to supporting local community organisations that help Tasmanians located in the vicinity of the proposed North West Transmission Developments to manage cost of living pressures, improve wellbeing and enhance resilience.

The [NWTD Community Benefits Sharing Program](#) is scheduled to commence alongside the construction phase of the project. In the meantime, the NWTD project continues to support a range of community organisations in the footprint of the proposed project throughout the Design and Approvals phase.

In the first of a series of videos highlighting different initiatives supported by TasNetworks and the NWTD project, the video below captures the fantastic work being done at Burnie Community House to relieve cost-of-living pressures.

Burnie Community House - Fake-away workshops

The Burnie Community House offers a fortnightly “Fake-away” workshop to help participants create their own delicious homemade takeaway meals at a reduced cost and with nutrition front and centre. TasNetworks is proud to support this initiative, which aims to relieve cost-of-living pressures by offering an alternative when it comes to those pesky moments when we all want to give in to purchasing expensive takeaway food.

Upcoming Engagement

Members of the NWTD team will be attending the following event to provide information about the project and capture feedback on what is important to community members:

[Penguin Undercover Market](#)

Sunday 11th August 2024, 9am – 3pm

Arnold St, Penguin

Information Pack

To ensure community members can access information they might need about the North West Transmission Developments project, we have released a new information pack on the TasNetworks website.

Read Information Pack

Got feedback? We're listening

Your feedback helps us to understand what is important to you and what we need to consider to achieve the best possible outcomes for the environment, landholders and the community.

Learn more

Rural Alive & Well (RAW) is passionate about building healthy and resilient rural communities.

RAW specialises in delivering proactive outreach and one-on-one psychosocial support that addresses situational stressors and increases protective factors, to minimise the risk of suicide.

RAW is 'non-clinical', genuine and non-intrusive. The service is confidential with no fees for participants.

RAW's staff have first-hand experience with the complexities of living and/or working in rural, remote and primary industry sectors. Staff each have backgrounds in Tasmanian Dairy, Livestock, Cropping, Mining, Wool Production, Forestry, Transport and Seafood.

If you feel that you're gauge has been running in the red for too long, it's time to reach out to RAW.
